The new **Airlight Lifter Tool** has been specifically designed by engineers who have experience of working on the airfield. Designed with this experience in mind it makes light work of maintenance and overcomes the most common issues when lifting lights out of the runway for maintenance or replacement. It keeps the operator safe from the risk of injury from high voltages and makes the process much faster.

Save Time

Remove and replace an inset light 30% faster and more consistently than other models.

Save Money

Professionally lift the light fittings for maintenance without damaging them or the rubber gaskets.

Protect Engineers

The Airlight lifter can be used while wearing high voltage gloves and also has a rubber handle and a firm grip, specifically desigend to keep fingers away from the light fitting.

Reduce F.O.D.

Less tools mean less risk, the tool has class 1 reflective tape to make it visible at night.

Features

- Rubber handle to reduce the risk from electrical shocks.
- Magnetic handle to speed up removal of washers from fittings.
- Non-Slip Guards on the tool.
- Handy extraction hook moulded into body.
- Pivoted extraction bar designed to minimise effort to lift fitting.
- Curved leverage point to ease extraction of light.
- 5 sizes in the range to fit ALS, ADB, ATG, TKH, Thorn, OCEM and old Alstom products.
- 8” and 12” models with Hook or Round pin extraction points.

How it Works

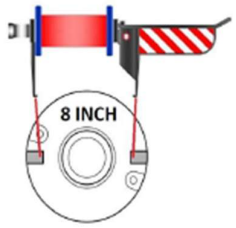

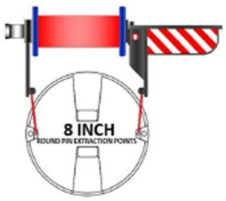

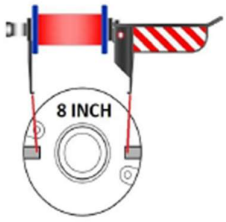

Easy and safe to operate with high voltage gloves on the airfield.

Supplied in a tough carrying case to protect the tool over life.

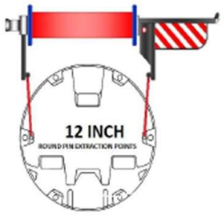

8” Models

ALS DTS Range	ADB Safegate 8”	ADB Safegate 8”	ATG 8” Range
AL-8	**TH-8**	**AD-8**	**AT-8**
			
SFL, RTIL, RC/IN, TZ/IN, FI/IN, RE/IN, RE/IN STOPWAY 8” Inset Taxiway Lights	TWY-IN-OMA, SL-TE-1, SL-SG-I, SL-HF-I, SL-HT-I	RWY-DRC, FTZ, TWY-DTS/DTC/DFS, TWY/STOPBAR-FTD, AIRSAFE 8”	ATG 8” ZA181, ZA182, ZA183, ZA293, ZA959, ZA280CL, ZA280D1, ZA281KL, ZA280OL, ZA280L, ZA281L, ZA280C, ZA280D, ZA281K, ZAZA280O, ZA2805X, ZA2815K, ZA280SO, IR909L
	Old Thorn 8”		Old Alstom
	TKH / Hella 8”		
	Can modify for ATG 8” Iris / FX & OECM 8”		

12” Models

ALS DTS 12”	ADB Safegate 12”	ADB Safegate 12”
AL-12	**TH-12**	**AD-12**
		
REO AL/IN, AS/IN, TH/IN, THRE/IN, RB/IN, AL/IN 12” Inset DTS lights	SafeLed Reliance 12” INL-REO	RWY APPROACH – FAP-RWY-FED, FEN, FTE, FTH
	Old Thorn 12”	Airsafe 12”
	OCEM 12”	
	ATG 12” FX / Iris	
	TKH / Hella 12”
