LED Rotary Hydraulic Arrestor Gear Marker RHAG

Airfield Lighting Systems Double Sided RHAG Marker, yellow spot, LED 6.6A,1230mm x 1230mm

Airfield Lighting Systems STANAG/MAA RA3500 series compliant LED RHAG marker. ALS LED Rotary Hydraulic Arrestor Gear Markers are the next generation of RHAGs for Military airfields, utilising the same proven cabinet design as our taxiway signs, the ALS LED RHAG has low energy consumption and requires minimal maintenance.

Features

- Highly visible in all operational conditions.
- Life expectancy in excess of 50,000+ hours, with minimal maintenance required
- Supplied fully assembled.
- Ease of installation.
- Corrosion resistant.
- Long term cost savings
- Power consumption 64W
- Can use Wingframe software to design your own sign via weblink https://www.wingframe.com/als

Electrical

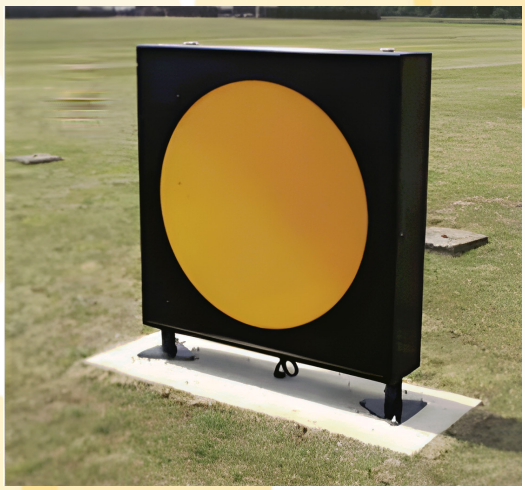

- LED, 6.6 Amp
- Can be interleaved with two 37W circuits if requested
- Halogen available on request

Order Code

RHAG DOUBLE SIDED

Airfield Lighting Systems UK Ltd

LED Rotary Hydraulic Arrestor Gear Marker RHAG

Cabinet Features

- Corrosion resistant aluminium.
- Finished externally in matt black.
- Frangible couplings and base plates supplied as standard.
- Hinged face panel for access.
- 5mm Acrylic UV stable facia with permanent bonded film over a diamond grade
- translucent retro- reflective sheet.
- Size: height 1230mm by width 1010mm.

Technical

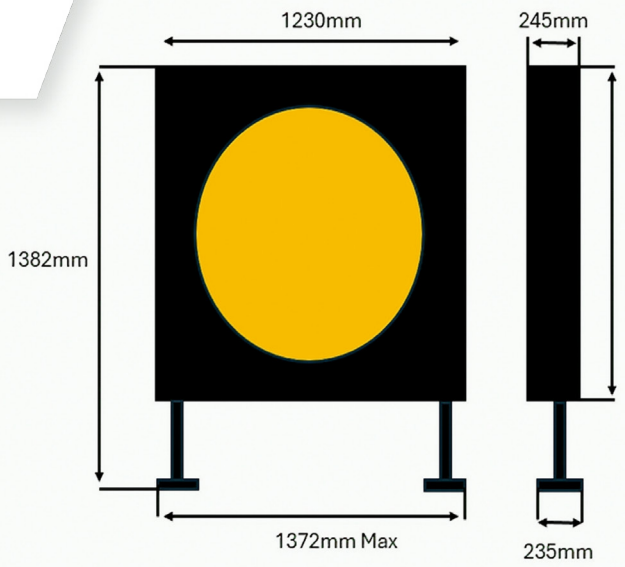

- Operating Temperature (°C): - 20 ~ +55
- Storage Temperature (°C) : - 20 ~ +85
- Protection Class: IP68
- Humidity: 0~100%

Options

- Halogen available on request.
- Single sided cabinets available

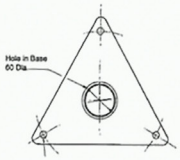

Compliance

- NATO Stanag 3316
- MAA RA3500 series
- ICAO Annex 14, Volume1, 7th Edition, July 2016, Par 5.4 & Appendix 4, Section
- 4 and Figure A4-1.2004 and associated Aerodrome Design Manuals.

1230mm

Note the mounting legs are
Offset to the front and dependant on the orientation
Of the triangular base plate, the base plate will be proud
Of the front face of the sign cabinet making total footprint
Front to back around 270mm
